

Nyingtob Ling Update 2016

All the students are in the best health and the skills according to their capability is improving.]

- Regular school student:-

This year one girl has finished the high school class and now studying in Senior school.

- 3 new students enrolled (the boy with HH the Dalai Lama's hand is the newest)

- Staff update:-

For the last years, we have daily physiotherapy session for students with physical disability. This year she resigned as the students are not interested for the routine exercise.

Educational, recreational & Cultural exchange

We always welcome visitors and arrange time to interact with the students in the class, dance & play. When visitors thanks the staff with tears and emotions, it encourages and inspire both the staff & students to work more.

Besides question answer sessions of the institution and Tibet, the director arranges special audience with H.E Karmapa and important Tibetan offices and Astro-medical center etc.

We exchanged ideas and views for future developments and promoting better global understanding.

Our students learnt some songs and dances and performed them in our hall.

Environmental awareness:

To add with paper recycling, we have added twice a week clean up to the regular schedule.

Whole day play/dance and eating with the 4th batch of Mentse- Khang students was one of the most enjoyed and memorable day for both sides.

Picnic and outings: The picnic of 2015 was in the middle of tall pine trees and it was a memorable day. Enjoyed whole heartedly and the warm sunny day is an additional gift.

Fete to sell extra items, and by-products of student's training was held on 4th & 5th June but cut short by evening rain.

Completed infrastructure

The hydrotherapeutic Swimming Pool and Basketball ground. They are in full use depending upon the weather.

Health update

No one was hospitalized for the last 4 years.

Men-tsee-khang has kindly waived of all the charges on the medicine for students.

Repair and maintenance:

The heavy monsoon in Dharamsala necessitates a repair and maintenance of the Classrooms, dormitory, staff Quarter, the prayer hall and the clinic wall and roof every few years.

Now we are looking forward to get sufficient fund to do the repair which will last longer. With better quality like water proof coatings.

* As Action plan of 2016, prayer hall wooden floor repairing & 3 class room wooden wall panels with insulation are completed.

* New Solar water heater for student's bathroom are installed.

Changes in our area (Local news)

THE BIG CHANGE OF DHARAMSALA IS THAT IT WILL BE A SMART CITY (municipality). IN OUR AREA THE VILLAGE PRADHAN IS REMOVED AND THE 1ST EVER COUNCILLOR WAS ELECTED. SO OUR AREA IS NOW CONSIDERED PART OF DHARAMSHALA CITY.

WE HOPE FOR BETTER CLEANLINESS & FACILITIES. HIS OFFICE HAS SHOWN INTEREST IN MY WORK AND OFFERED TO INSTALL A HAND PUMP WATER WELL. ONLY TOKEN EXPENSES FOR OIL & LABOUR HAS PAID RS.25000.THE WORK WILL DONE WITHIN 20 DAYS.

Conclusion

In behalf of the children and staff of Nyingtob Ling, I thank all our moral and financial supporters from the depth of my heart. The credit for the success of Nyingtob Ling owes to you.

We wish you all the very healthy and happy days.

Nawang Lhamo
